Subject: Red Arrow Products Company, Inc.  
Return To Compliance (Closure)

Dear Mr. Kreder:

ANUM  
008

On August 12, 1991, the Department of Natural Resources issued a Notice of Violation to Red Arrow Products Company, Inc., concerning excessive carbon monoxide emissions at its facility located in Manitowoc, Wisconsin. Subsequently, the company installed continuous monitoring equipment and altered its burner conditions. A carbon monoxide emission test was conducted on August 22, 1991, documenting the company's compliance with its Wisconsin Air Pollution Permit No. 87-AJH-043.

This response has been reviewed and found to satisfy the requirements of section NR 426.025, Wisconsin Administrative Code.

Therefore, the Department will take no further enforcement action at this time for the violation listed in the above mentioned Notice of Violation. However, please be advised that future violations of this or any other pollution control law may cause the Department to reevaluate this decision.

If you have any questions, please contact Mr. David Pflug at (414)492-5842.

Sincerely,

*Joan Marie LeClerc*
